Camp organisers realise the responsibility you give us when allowing your child to attend a camp and, therefore, endeavour to cover all eventualities. The organisers, like parents, place trust in the student to demonstrate sensible behaviour at all times. All camps are an extension of school and carry the same rules and restrictions. In addition, the Bridgetown Camp School has a set of conditions that must be observed.

Staff accompanying students on excursions will take all reasonable care while students are in their charge to protect them from injury and to control and supervise their behaviour and activities. Parents/guardians should be aware that, generally, the Department and its staff members are only responsible for injuries or damage to property which has been caused by the negligence of staff.

However, the Department does have limited personal accident cover for students on approved camps/excursions which include an overnight stay. This insurance covers the ‘gap’ costs over and above what is paid by Medicare or the student’s private health insurer up to a prescribed capped amount. The policy covers students to a maximum of $50,000 for medical and ancillary expenses where Medicare or private health insurance does not cover these costs.

Parents are required to inform the organisers well before the scheduled excursion departure of any change to their child’s health and fitness so that appropriate supervision may be arranged.

Where it is considered necessary, school staff will arrange medical assessment and treatment for students.

I understand that should my child fail to comply with the student contract (see below) he/she may be returned to home at my (the parents) expense.

I have read & understood the information regarding the excursion and give consent for my son/daughter ______________________________ to attend camp at the Department of Education’s Bridgetown Camp School.

Considerate and sensible behaviour with due regard for the well being of all others, and respect for the environment, should preclude the need for strict rule enforcement. There are some areas, as indicated below, about which students need to be aware of if a harmonious and worthwhile stay at Bridgetown is to be effected.

The following areas need to be discussed and a policy formulated:

General behaviour.

Dormitories.

Phone calls in and out.

Electronic devices.

Bed time.

Meals.

Hygiene.

Sweets and softdrinks.

Punishment for breach of policy.

Remember a great camp happens when we all: use excellent manners; share; co-operate; think for ourselves; and consider the needs of others.
Dear Parent / Guardian,

The Department of Education has an Information Privacy and Security Policy that requires schools to gain parental/guardian permission before using visual images of students as photographs outside the school environment. Bridgetown Camp School uses images of students in a variety of ways to recognize excellent achievement, inform parents and the local community of the activities conducted at the camp school and to promote Bridgetown Camp School. From time to time we may also be asked to contribute to Department of Education materials such as educational videos and the “School Matters” newspaper.

We request your permission to use images of your child (names will not be used) in some or all of the ways listed below.

* School website / videos / newsletters / magazines or any medium in relation to school activities
* Promotional material for the Department of Education & Training
* Articles for West Australian / School Matters / Community Newspapers

As part of the evening programme, we occasionally show DVD’s at the Bridgetown Camp School. In order for your child to watch the appropriate films, please indicate which films you give permission for them to watch.

Please tick in the relevant boxes: PG [ ] M [ ] MA [ ]

Thank you

N.B.  
* I request you allow me to make all bookings. There will be one invoice to cover all camp expenses.

Parental permission is required to climb to the half way platform (only) of this tree. It is not recommended for students below year 7. Adults capable and willing to climb must accompany the students. Only 6 are able to climb at one time. A 2.4km walk to the Warren Lookout takes in the best of the Karri Forest and the Warren River Valley. The view from the lookout to the Warren River is superb and is well worth the walk.

**BEEDELUP FALLS:** Short loop walk over both wooden bridge and a suspension bridge gives great views of the falls.

**BIG BROOK DAM:** Excellent spot for swimming, fishing, picnics, canoeing mountain bike riding and games. BBQ, change rooms, and a 3.4 km walk/ride trail around dam.

FULL DAY ACTIVITIES

Walpole (150km from Bridgetown)
WOW WILDERNESS ECO-CRUISES: Are recognised leaders in interpretive ecotourism. The eco-cruises are based in the wilderness areas and waterways of Walpole's National Parks. The tours provide students with an enjoyable interacting experience that generates understanding, appreciation and stewardship of the environment. The tours include a boat cruise on the Walpole and Nornalup Inlets and a guided bush walk to a wilderness declared beach.
Cost: $13.64 per student, + GST. Teachers - Free
Website: www.wowwilderness.com.au

TREE TOP WALK: Is 600m long and, at it’s peak, 40m high steel truss construction which slowly rises from the forest floor into the canopy of the giant tingle trees. The walk is suitable for assisted wheelchairs. Guided tours are available
Cost: $9.55 per student, + GST. 1 Teacher - Free per 10 students. $19.09 per adult + GST.

ECO EDUCATION - ECO SYSTEM EXPLORERS
AT THE TREE TOP WALK:
Middle childhood - Early Adolescence Years.
Students learn that the tingle forest is an ever changing ecosystem affected by agents of change such as water, fire, weather and human activities. Some changes can happen quickly, others are very slow processes. A forest walk allows students to identify agents of change in the tingle forest ecosystem. Students also learn about the impact of erosion, over cleared and vegetated landscapes and the different processes of soil formation through practical demonstration. A study of aerial photography allows students to visualize how much of the landscape has been impacted by different changes.
Cost: $12.50 per student (or $22.00 inc Tree Top Walk).

ANCIENT EMPIRE - VALLEY OF THE GIANTS: Includes a boardwalk through a grove of veteran tingle trees known as the ANCIENT EMPIRE. The boardwalk not only meanders around and sometimes through the GIANTS (some trees of which measure up to 16m in circumference), but, gives visitors a different perspective on the shapes, sounds, and movement of the forest.
Other attractions include: Giant Tingle Tree; the Walpole townsite; Coalmine Beach (usually ideal for safe swimming and beach games); Nuyts Wilderness walk and swing bridge crossing of the Deep River; and Conspicuous Cliffs beach.

DONNELLY RIVER HOLIDAY VILLAGE DAM:
25 kms away, is the one most often used. It is the only place that a flying fox is available and has the added bonus of numerous semi-tamed kangaroos and emus.

BIG BROOK DAM: at the end of the Rainbow Trail in Pemberton (75 kms away) another excellent spot. It has BBQ's, picnic shelters, change rooms, and a 3.4 km walk/ride trail around dam.

The total tour takes 2 hours of which the cost is $10.00 per student and $21.80 per teacher + GST.
Adults 15+ years
Maximum group size - 40.

Educational Sheets are available.

Greenbushes (15 kms from Bridgetown)

**TALISON MINE:** Is the main industry in the immediate area. The Greenbushes open cut operation is one of the world’s largest suppliers of two key strategic minerals - tantalum and lithium. Tantalum is mostly used in capacitors for electronics, including Sony ‘play stations’ and mobile phones. Lithium is used in glassware, TV tubes, computer monitors, fibreglass and ceramics. The tour includes viewing the open cut mine, the tantalum processing plant, re-vegetation areas illustrating the environmental policies and the interpretative and interactive resources at the Discovery Centre.

**GREENBUSHES DISCOVERY CENTRE:**
The Greenbushes Discovery Centre tour is included as part of the Talison Mine Tour or can be visited on its own. Students receive an introductory talk on the history of Greenbushes prior to entering both the Timber and Mining modules.

The Greenbushes Discovery Centre tells the story of human involvement with the environment. It houses interactive displays and unique games set in various themes namely Mining, Timber Milling, Community and Agriculture, all under the umbrella of “The Land”.

Experience the “Discovery Forest” interactive timber display or explore the “Discovery Decline” replica underground tunnel.

Whatever our initial motivation, with commitment and practice, we find that Yoga can support us to achieve all the above.

The Camp School Manager is responsible for the total administration of the camp, including management of camp school finances, staff and maintenance of buildings and grounds. In addition, the Camp School Manager supports teachers using the camp school in the following ways:

* Ensuring a qualified 1st aid person is on site.
* Being familiar with the local area.
* Ensuring adequate educational (and recreational) resources exist at the camp.
* Helping teachers in designing a programme that satisfies their requirements.
* Providing a camp school organizational and information booklet.
* Booking excursions.
* Typing of programme.
* Conducting the camp school orientation.
* Conducting the first meal for camp leaders new to the camp.
* Organising (on request) transport during camp.

TEACHER IN CHARGE (GROUP LEADER)

Note: Parent helpers should have no disciplinary responsibility.
TIPS FOR A SUCCESSFUL CAMP

SLEEP:
Plenty of it. Especially first night. Kids don’t recognize fatigue in themselves, and need plenty of persuasion to go to sleep. I suggest that the staff make frequent checks in the first hour after lights out and insist on absolute quiet. Children are more likely to fall asleep if they are kept quiet and still, out of boredom if nothing else.

FREE TIME:
None/limited. Make relaxation time active eg. organised (and supervised) sport. “Quiet times” should involve reading or diary writing etc. Staff could be rostered to supervise these activities ... perhaps this is a time for you, as Camp Leader, to have some student free time and recharge your batteries.

DORMITORY COMPETITIONS:
I believe daily dorm inspections are a necessity. Running a dormitory competition has the effect of maintaining good standards of hygiene and cleanliness, as well as developing personal pride and health habits, securing good discipline within the dormitories, and reducing the workload involved in the end of camp clean-up.

POCKET MONEY:
It is suggested to keep pocket money to a small amount. In fact no pocket money at all is worth considering.

SNACKS, LOLLIES, AND SWEET DRINKS:
I strongly advise that these be banned from camp. They cause hygiene problems within the camp; are contrary to the DEWA's School Health Care Policy; and adversely affect the students' behaviors.

MOBILE PHONES:
I see no need for students to bring mobile phones on camp. There have been instances where the inappropriate use of mobile phones has caused unwarranted concerns for parents and unnecessary problems for others, including staff.

WET WEATHER ALTERNATIVES:
Though there is rarely a need ... you never know! Whilst I can usually assist by running some indoor games or suggesting some other solution, this is not always the case, so please be prepared!

TRANSPORT:
For most camps I strongly advise having a coach / bus stay with you for the duration of your camp. Most local buses are tied to school bus runs. Having a bus stay for the duration of the camp:
• provides more program flexibility
• is generally a more cost effective option
• is much safer and convenient if ever there was a need to abandon an excursion
• or, in the case of a bushfire for example, evacuate the camp

COMMITMENT (and safety):
By allowing students (and other staff) to shoulder some responsibility for camp, and therefore responsibility for the camps success or failure, they will show more commitment. Attempt to integrate the planning of camp into your curriculum, that is, look to share the ownership of the camp experience. If you do all the objective setting, and prior preparation and planning, odds are, you will be the most, and perhaps only one, committed to camp.

Committed, aware people are generally safer, more responsive people!
REMEMBER: “prior preparation and planning prevents poor performance.”

INITIAL PLANNING.
1. Check that the camp deposit has been paid. Doing so secures your booking. Complete and return the Booking Form and Hire Agreement.
3. Check out our website: www.bridgetowncampschool.wa.edu.au
4. Check that you have received the latest version of the Bridgetown Camp School – Camp Information Booklet. (Please dispose of old versions.)
5. Arrange transport. (I recommend a bus and driver stay for the duration of camp)

AT LEAST ONE MONTH BEFORE YOUR CAMP.
1. Send home and have returned the following forms: Parent Information, Parent Consent and Contract, Medical and Water Based Authority, and Media and Video Permission.
2. Complete the Draft Itinerary form and fax back to camp school on 9761 1866. (Camp Manager will then forward a programme draft for comment.)

LEADING UP TO CAMP. (The earlier the better in most cases.)
1. Complete the required Excursion Management Plans and have them signed-off by the Principal.
2. Send Clothing and Equipment Checklist home.
3. Send a copy of the Camp Programme and any other final details of camp to parents and receive payment for camp.
4. Prepare Camp Booklets to include Dear Diary, Duty Roster, quizzes, crossword etc.
5. Allocate dormitories and draw up Dormitory Competition score-sheet.
6. Finalize evening programme and make wet weather alternatives – just in case.
7. Organize a staff roster and a student Duty Roster.
8. Brief all campers, including teachers and parent helpers, on roles and responsibilities – including the role of the Camp Manager and camp staff.
10. Ensure that you have received from the camp school: a copy of the final programme; sample Excursion Management Plans; background information and worksheets on pertinent excursions and activities; and a copy of a quote Camp Invoice (Note: One invoice is issued and includes all accommodation, meal, activity and excursion costs.)
11. Procure a drink container for the return trip home.
12. Complete and fax the Camp School Return form at least two weeks prior to arrival.

ARRIVAL TO CAMP.
1. Meet in the dining room and provide the manager with a list of all students and staff attending camp and a copy of a completed Safety and Behavior policy.
2. The students will be briefed on the camps dormitory rules and policy. Students then begin unpacking and making their beds.
3. The Camp Manager will then conduct a camp orientation.
4. Student shower prior to dinner.
5. The Camp Manager will conduct the first meal for Teachers-in-Charge new to the camp school.
6. Again for Teachers-in-Charge new to the camp school the Camp Manager will explain campers duties.
7. Prior to the evening programme the Camp Manager will usually have completed his duties and gone home.

DURING CAMP.
1. Please read Camp Roles, specifically the Camp Leader Role.

DEPARTING CAMP.
1. Students complete normal duties. There are no extra duties. Please ensure dishes, especially, are well cleaned and dry. Students are to clean out their dormitories, vacuum the floors and make the beds the same as when they arrived.
2. Prior to departing gather students in the meeting room for final farewells.
3. Pick up Camp Invoice and a Camp School Feedback Form.
4. Make a booking for the following year.
The dining room will accommodate a maximum of eleven tables. A maximum of eight people can sit around each one of these. I normally, however, recommend six people per table.

The duties are coded:

CAMPER’S DUTIES

- Staff are expected to supervise duties.
- Parents are expected to encourage children to complete their duties quickly and efficiently, however, NOT to do the work for them.

DORMITORIES - All are responsible
- Make the beds each morning.
- Vacuum the floor daily.
- Ensure clothes etc. are neatly folded or hung. Nothing is to be left on the floor.
- Remember that food and drinks are not to be consumed in the dormitories.

ENERGY MONITOR - All are responsible
- Prior to dinner, the evening programme, and as you are about to leave for the days activities, ensure that all lights, not required, are turned off.

SETTERS, SERVERS, CLEARING (SSC) - 1 per table
- Fifteen minutes before the evening meal, wash hands and report to the dining room.
- Set the tables with knives, forks, spoons, cups and water jugs.
- In the morning collect jams, butter, orange juice, yoghurt, fruit and milk from fridge. Place these and the large cereal containers on a table at the front of the dining room.
- At the evening meal you are usually required to serve the main meal. This requires listening to the cook, who will tell you how much food to put on each plate. You are also required to serve the sweets.
- After each meal, scrape the scraps from the plates into the food scrap buckets and put the knives, forks and spoons into the “cutlery wash up bowl”.
- Carry the dishes to the wash up area and stack them on the bench.
- Clear the table completely.

WASHING AND WIPING UP (WWU) - 1 per table
- Half fill the required number of wash-up and rinser sinks with warm to hot water.
- Add a small amount of detergent to the wash-up sink only.
- EITHER: Wash the dishes in order from cleanest through to greasiest OR wash the jugs and cups in one sink, the sweet bowls in another and the mains plates in yet another.
- Wipe and return the dishes (Note: For hygiene reasons it is best to wipe and air dry the cups for a period of time before stacking them.)
- Hang tea towels on the drying rack.
- Wipe down the sinks and rinse the sponges.

DINING ROOM CLEANERS (DRC) - 1 per table
- After each meal, four people are to collect the basins stored in the servery. With the addition of a little water, they are to wipe the tables, serving oven, and baine marie clean.
- The others are to stack the chairs, move the tables as required by your teachers for the evening activity, and, using the brooms found in the servery, to sweep the floor.

LUNCH DUTY (LD) - 1 per table
- Before departing on the daily excursion, collect the lunches from the kitchen, and take them to the coach or bus.
- Upon returning from the excursion, wash and dry all the lunch dishes and return them to the kitchen.

ANIMAL FEEDERS / FOOD HARVESTERS (AF) 1 per table
- After breakfast report to the kitchen and assist one of the camp staff in feeding the poultry. Collect the eggs (if you can find them).
- Wash the buckets.

KITCHEN HELPERS (KH) - 1 per table
- After the morning and evening meal report to the kitchen and assist the cook as required.
BRIDGETOWN
Camp School

take the plunge!

Camp Booklet 2017
Bridgetown is approximately 268 km south and about 95 km south of Bunbury, on the South Western Highway and roughly 2.5 - 3 hours drive from Perth.

Bridgetown is a glorious town nestled amongst the hills on the banks of the Blackwood River and has the rare combination of old world charm and modern facilities. Many fine old buildings have been painstakingly restored to their former glory, including the post office, old gaol, police station, St. Paul's Anglican Church and Bridgetown's pride and joy - "Bridgedale", the home built in 1862 by one of the area's first settlers, John Blechynden. Also worth visiting is the old Bridgetown railway station, which is now the Blackwood Environment Centre. Bridgetown has been recently listed as a heritage town by the National Trust.

The town has been the site of several bridges across the Blackwood. The most recent bridge was built in 1981 and is the last of the large wooden bridges to be built in Western Australia, if not Australia. It is a colossal structure, 127.5 metres long, made from hand finished jarrah.

Bridgetown derived its name from the bridge which spans the ‘Blackwood River’ plus the “Bridgetown” was the ship to put in at Bunbury for wool from these districts. The original native name for the townsite was “Geegelup”, but the town was officially gazetted Bridgeton on June 4, 1868.

A feature of Bridgetown is its marked seasonality. There are golden summers, the russet colours of autumn foliage, the winters with green hillsides and mists in the valleys and the exuberant colours of bulbs and blossom in spring.

Bridgetown is famous for its misty mornings brought about by the combination of its river location and cold nights. With its valleys and steep slopes it is one of the most picturesque town in Western Australia.

Today, Bridgetown is the centre of a thriving and attractive district where, apart from tourism, the major industries are timber and horticulture (fruits, vegetables, nuts, olives, and wineries). The town boasts two art galleries, three wineries, a cidery, eight cafes, seven restaurants, three hotels and 35 accommodation houses (including WA's 2001 'Best Bed & Breakfast'). It has also become a destination of choice for people seeking a life-style change as an alternative to living in the suburbs of a large city.
